Objective

Want to mix my programming skills with creative thinking. Looking for a role where I can bring fresh ideas, find new solutions, and grow my skills in the dynamic world of computer science.

Projects

Job Portal Website

- Clean and professional UI with responsive design and dropdown menus.
- Created to mimic professional job portals like LinkedIn, focusing on front-end skills.

Amazon UI Clone

- Fully responsive design with horizontally scrollable product carousels and a user-friendly layout inspired by Amazon.
- Product sliders for best sellers and deals with hover effects and responsive design.

Pet Care Website

- Vibrant and pet-friendly design using pastel colors and responsive layouts.
- Interactive slideshow and service boxes for a dynamic user experience.
